

Purple Tilefish (*Hoplolatilus purpureus*)

Date Added: 09/18/2009

ORA Chips

Date Added: 08/23/2009

Superman monti

Date Added: 08/23/2009

Sunrise dottyback (*Pseudochromis flavivertex*)

Description: Beautifully colored, somewhat shy, and semi-aggressive with the other fish. Quite a mischievous personality.

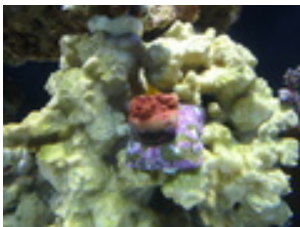

Date Added: 08/11/2009

Fire shrimp (*Lysmata debelius*)

Description: Have 2 in the tank. They will clean the orange shoulder tang and anthias. Had 6, but two paired up and killed the rest.

Date Added: 08/11/2009

Darth Maul chalice

Description: From WWC.

Date Added: 08/07/2009

Mellow Yellow chalice

Description: From WWC.

Date Added: 08/07/2009

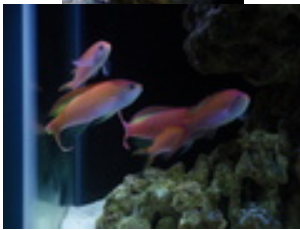

Mystic sunset monti

Date Added: 08/07/2009

Jedi Mind Trick montipora

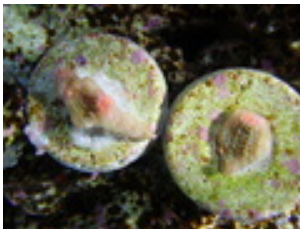

Date Added: 08/07/2009

Carberryi anthias (Nemanthias carberryi)

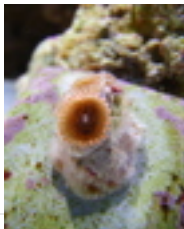

Description: Have a school of 5. Great, colorful schooling fish! They are some of my favorite fish. Eat well and are very active. Like to be cleaned by fire shrimp.

Date Added: 08/04/2009

Bubble Gum Monster

Date Added: 07/28/2009

Nightmare zoas

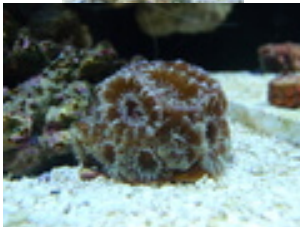

Description: Have bleached a little since being in my tank, but have grown 3 new polyps quickly.

Date Added: 07/28/2009

Hot pink zoas

Date Added: 07/21/2009

Acan

Description: Blue, brown, and golden.

Date Added: 07/21/2009

Orange shoulder tang (*Acanthurus olivaceus*)

Description: Very active at picking algae off the rocks and glass. Has a great personality and gets along with the other fish great.

Date Added: 07/20/2009

Hippo tang (*Paracanthurus hepatus*)

Description: Colorful fish, but somewhat shy. Likes to swim around with the orange shoulder tang.

Date Added: 07/20/2009

Tailspot blenny (*Ecsenius stigmatura*)

Description: Cute little fish. Cleans the algae off the rocks well. Is somewhat shy, but can stand his own ground with other fish.

Date Added: 07/20/2009

Spotted mandarin (*Synchiropus picturatus*)

Description: Beautiful fish. Minds his own business while looking for pods to eat. Mine will also eat frozen (if he can catch it quick enough).

Date Added: 07/20/2009

Greg Hiller Aqua Delight

Description: purple coralites, blue tips, and light blue/green branches with orange/brown base

Date Added: 07/20/2009

Blue Diamond acro

Description: From reefexotic.net.

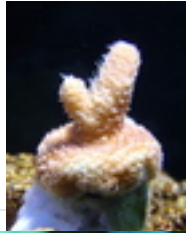

Date Added: 07/20/2009

ORA Red Planet

Description: Browned out from the move and now is mostly red, not much green left.

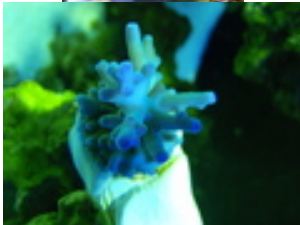

Date Added: 07/20/2009

Watermelon milli

Description: From reefexotic.net

Date Added: 07/20/2009

Deepwater Bottlebrush acro

Description: From WWC. Very pretty coral. Slow grower though.

Date Added: 07/20/2009

Incredible Hulk acro

Description: From reefexotic.net. Looks best under bluer light. Grows quickly.

Date Added: 07/20/2009

Rainbow acro

Description: From reefexotic.net. Extremely slow grower. :(

Date Added: 07/20/2009

ORA Pearlberry

Date Added: 07/20/2009

Tri-color acro

Description: Pink/purple tips, orange base, green polyps.

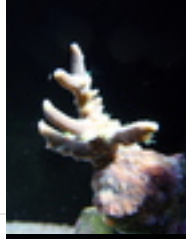

Date Added: 07/20/2009

Blue Tipped tenius

Description: Shaggy thing!

Date Added: 07/20/2009

Neon green Acropora caroliniana

Description: One of my first corals and my first SPS. Painfully slow grower. Has only encrusted some and grown maybe a centimeter or two up after a year and a half!

Date Added: 07/20/2009

Acan

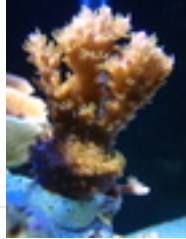

Description: Pink with white stripes and orange mouths

Date Added: 07/20/2009

Garf Bonsai

Date Added: 07/20/2009

Purple acro

Description: Purple with yellowish polyps.

Date Added: 07/20/2009
